BUILD IT STRONG AND SOLID

SOLIDWIN ENGINEERING ENTERPRISES (PVT) LTD

WELCOME TO SOLIDWIN

Solidwin Engineering Enterprises (Pvt) Ltd is a full-service construction and civil engineering company committed to delivering robust, high-quality structural projects across Sri Lanka.

We specialize in end-to-end execution from site infrastructure, commercial and industrial builds, to specialized agricultural facility developments. Powered by an experienced engineering team, rigorous quantity surveying, and dedicated project management, we ensure every project is executed on schedule, within budget, and to exact structural standards.

OUR CORE COMMITMENT:

- **Precision & Quality:** Uncompromised structural engineering standards.
- **Project Control:** Rigorous cost control and scheduling from day one.
- **Safety & Compliance:** Strict adherence to site safety and environmental guidelines.

SOLIDWIN

BUILD IT STRONG AND SOLID

SOLIDWIN ENGINEERING ENTERPRISES (PVT) LTD

ABOUT COMPANY

Solidwin Engineering Enterprises (Pvt) Ltd is an established engineering and construction contractor specializing in high-quality civil, structural, and infrastructure development projects. We deliver comprehensive end-to-end solutions, combining precise project estimation, quantity surveying, and rigorous site management. From commercial developments to specialized agricultural facilities, our focus remains on structural excellence, safety, and operational efficiency.

WHY CHOOSE SOLIDWIN

ENGINEERING EXCELLENCE

Dedicated technical oversight ensuring every build meets exact structural specifications and safety standards.

TRANSPARENT COST CONTROL

Accurate quantity surveying and material estimation to prevent budget overruns.

SITE & SAFETY LEADERSHIP

Strict adherence to site safety policies and environmental regulations on every project location.

TIMELY EXECUTION

Streamlined scheduling and heavy equipment resource management to keep projects on deadline.

SOLIDWIN

BUILD IT STRONG AND SOLID

SOLIDWIN ENGINEERING ENTERPRISES (PVT) LTD

OUR VISION

VISION

To be the most trusted and efficient construction partner, recognized for delivering high-quality projects at speed while setting the industry standard for accountability and structural integrity.

MISSION

We are committed to delivering exceptional engineering and construction solutions rapidly, without ever compromising on quality. We stand firmly behind our work, taking absolute responsibility for our structures and ensuring peace of mind for our clients through unmatched accountability and lifelong reliability.

SOLIDWIN

SOLIDWIN ENGINEERING ENTERPRISES (PVT) LTD

CORE SERVICES & SPECIALIZATIONS

01

CIVIL & STRUCTURAL WORKS

COMPREHENSIVE CIVIL CONSTRUCTION SERVICES EXECUTED STRICTLY TO ENGINEERING STANDARDS AND TECHNICAL SPECIFICATIONS:

- BUILDING CONSTRUCTION FOR COMMERCIAL, RESIDENTIAL, AND INSTITUTIONAL FACILITIES.
- CONCRETE STRUCTURES, FOUNDATIONS, REINFORCED COLUMNS, AND HEAVY SLAB CASTING.
- EARTHWORKS, SITE PREPARATION, DRAINAGE SYSTEMS, AND RETAINING WALLS.

02

STEEL STRUCTURES & FABRICATION

SPECIALIZED STRUCTURAL STEEL SOLUTIONS DESIGNED FOR STRENGTH, RAPID DEPLOYMENT, AND DURABILITY:

- HEAVY STEEL BUILDING FRAMES, TRUSSES, AND STRUCTURAL SUPPORTS.
- INDUSTRIAL FACTORY BUILDINGS, WAREHOUSES, AND STORAGE FACILITIES.
- CUSTOM METALWORK, STEEL ROOFING SYSTEMS, AND PROTECTIVE STRUCTURAL CLADDING.

03

INFRASTRUCTURE PROJECTS

LARGE-SCALE SITE DEVELOPMENT AND CIVIL INFRASTRUCTURE SOLUTIONS:

- ROADWAYS, INTERNAL ACCESS ROUTES, AND HEAVY-PAVEMENT SITE SURFACING.
- UTILITY INFRASTRUCTURE, WATER RETAINING STRUCTURES, AND SITE DRAINAGE NETWORKS.
- SITE MOBILIZATION, TEMPORARY FACILITIES, AND LOGISTICS PLANNING.

SOLIDWIN

BUILD IT STRONG AND SOLID

SOLIDWIN ENGINEERING ENTERPRISES (PVT) LTD

04

AGRICULTURAL FACILITIES

CUSTOM STRUCTURAL BUILDS ENGINEERED FOR INDUSTRIAL AGRICULTURAL REQUIREMENTS:

- SPECIALIZED LIVESTOCK HOUSING, INCLUDING MULTI-CAGE POULTRY FARM FACILITIES.
- CLIMATE-CONTROLLED AGRICULTURAL STRUCTURES, PROCESSING CENTERS, AND STORAGE SHEDS.
- DURABLE, WASH-DOWN RESISTANT CIVIL FINISHES DESIGNED FOR HEAVY OPERATIONAL ENVIRONMENTS.

05

FACTORY & INDUSTRIAL BUILDINGS

HIGH-PERFORMANCE INDUSTRIAL SPACES TAILORED TO PRODUCTION AND OPERATIONAL NEEDS:

- OPEN-SPAN MANUFACTURING FACILITIES AND PRODUCTION PLANTS.
- HEAVY-DUTY INDUSTRIAL FLOORINGS, REINFORCED EQUIPMENT PADS, AND LOADING DOCKS.
- STRUCTURAL EXPANSIONS, RETROFITTING, AND SAFETY UPGRADES.

06

RENOVATIONS & STRUCTURAL REPAIRS

UPGRADING, REINFORCING, AND RESTORING EXISTING INFRASTRUCTURE:

- STRUCTURAL RETROFITTING, COLUMN RE-STRENGTHENING, AND LOAD-BEARING ALTERATIONS.
- COMMERCIAL AND INDUSTRIAL BUILDING RENOVATIONS AND LAYOUT MODIFICATIONS.
- SURFACE RESTORATIONS, WATERPROOFING SOLUTIONS, AND FACILITY MAINTENANCE.

SOLIDWIN ENGINEERING ENTERPRISES (PVT) LTD

PROJECT 01

STEEL INDUSTRIAL FISH PROCESSING & COLD-CHAIN FACTORY

PROJECT DESCRIPTION

Complete civil execution, structural steel fabrication, and engineering erection for a high-capacity seafood processing factory. Due to the high moisture and saline operational environment, the facility was engineered using high-grade structural steel frameworks treated with multi-layer corrosion-resistant coatings.

The scope of work encompassed deep foundation casting, high-durability reinforced industrial concrete floor slabs, specialized multi-directional washdown drainage channels, and hygienic wall/ceiling cladding panels.

The structural layout was specifically designed to support heavy overhead cold-chain refrigeration units, blast freezing zones, automated processing lines, and heavy-duty logistics loading docks, ensuring strict operational hygiene and temperature control.

KEY HIGHLIGHTS

STRUCTURAL SYSTEM
- High-grade structural steel frames
- Multi-layer corrosion-resistant coating

FOUNDATION & FLOORING
- Deep foundation casting
- Reinforced industrial concrete floor slabs

DRAINAGE SYSTEM
- Multi-directional washdown drainage channels

WALL & CEILING
- Hygienic insulated cladding panels
- Moisture & corrosion resistant

COLD-CHAIN SUPPORT
- Heavy overhead refrigeration units
- Blast freezing zones

LOGISTICS & OPERATIONS
- Automated processing lines
- Heavy-duty loading docks

PROJECT 02

TURNKEY COMMERCIAL POULTRY FARM INFRASTRUCTURE

PROJECT DESCRIPTION

Turnkey civil engineering and infrastructure development for a large-scale commercial poultry farm facility for Pussella Meat Producers (Pvt) Ltd, a premier livestock enterprise in Sri Lanka.

The project involved extensive site preparation and earthmoving, site grading, heavy concrete column and footing casting, and the construction of specialized multi-cage livestock housing facilities designed for optimal natural ventilation, climate resilience, and biosecurity control.

In addition to primary farm housing, Solidwin executed all supporting site infrastructure, including access roadways, water management networks, and site mobilization logistics.

Based on the successful delivery and structural quality of this initial project, Solidwin has maintained an active, ongoing partnership with Pussella, executing multiple facility expansion and civil infrastructure projects across various island-wide sites in Sri Lanka.

KEY HIGHLIGHTS

SITE PREPARATION & EARTHWORKS
- Extensive site clearing, earthmoving & leveling
- Optimized grading for drainage & access

CIVIL & STRUCTURAL WORKS
- Heavy concrete column & footing casting
- Durable structures built for long-term performance

POULTRY HOUSING FACILITIES
- Multi-cage housing with natural ventilation
- Climate resilience & biosecurity focused design

SUPPORT INFRASTRUCTURE
- Internal roadways & access development
- Water management & drainage systems

ONGOING PARTNERSHIP
- Continued trust from Pussella Meat Producers
- Multiple expansion projects across Sri Lanka

BUILT FOR PRODUCTIVITY.
ENGINEERED FOR BIOSECURITY.
DESIGNED FOR THE FUTURE.

PROUD PARTNER OF
PUSSELLA MEAT PRODUCERS (PVT) LTD
BUILDING A STRONGER SRI LANKA.

PROJECT 03

HIGH-CAPACITY INDUSTRIAL CHICKEN PROCESSING & PACKAGING PLANT

PROJECT DESCRIPTION

Comprehensive civil and structural construction of a specialized, high-volume poultry processing plant built to withstand demanding industrial operations. The structural scope featured wide open-span steel building frames to maximize internal clear floor area, heavy reinforced machinery foundation pads, and custom overhead structural supports for automated processing equipment.

Interior civil finishes were executed using high-durability, chemical-resistant floor toppings capable of enduring daily high-pressure thermal washdowns and heavy forklift traffic.

The facility integrates climate-controlled cutting and packaging rooms, high-capacity drainage and industrial effluent handling networks, administrative support buildings, and heavy-pavement loading bays for distribution logistics.

KEY HIGHLIGHTS

STRUCTURAL FRAMEWORK
- Wide open-span steel structures
- High strength & long-term durability

MACHINERY SUPPORT
- Heavy reinforced foundation pads
- Custom overhead supports for automation

INDUSTRIAL FLOORING
- Chemical-resistant floor toppings
- Withstands washdowns & forklift traffic

CLIMATE-CONTROLLED AREAS
- Cutting & packaging rooms
- Temperature regulated for product quality

DRAINAGE & EFFLUENT
- High-capacity drainage systems
- Industrial effluent handling networks

LOGISTICS & SUPPORT
- Heavy-pavement loading bays
- Administrative & support facilities

BUILT FOR **STRENGTH** | ENGINEERED FOR **EXCELLENCE** | COMMITTED TO **SAFETY** | FOCUSED ON **EFFICIENCY**

06. HEALTH, SAFETY, ENVIRONMENT (HSE) & QUALITY ASSURANCE

At Solidwin Engineering Enterprises (Pvt) Ltd, structural safety and quality control are fundamental to everything we build. We operate under a strict dual policy: guaranteeing that every structure meets rigorous engineering standards while maintaining a zero-compromise safety culture across all job sites.

1. QUALITY ASSURANCE & CONTROL (QA/QC) POLICY

We are committed to delivering engineering excellence from initial site mobilization to final handover. Our quality management framework ensures:

STRICT MATERIAL COMPLIANCE

All raw materials—including cement, steel reinforcement, structural trusses, aggregates, and chemical additives—are tested and sourced strictly to match engineering specifications.

PRECISION STRUCTURAL ENGINEERING

On-site execution is governed by detailed structural drawings, strict mix ratios, proper rebar spacing, and controlled curing processes to prevent structural defects or scaling.

RIGOROUS SITE INSPECTION

Regular QA/QC audits are conducted at every critical milestone, including excavation, rebar tying, shuttering, concrete pour, and structural steel erection.

CONTINUOUS TECHNICAL SUPERVISION

Dedicated quantity surveyors, engineers, and site supervisors monitor daily progress to guarantee full compliance with client requirements and standard building codes.

2. HEALTH, SAFETY & ENVIRONMENT (HSE) POLICY

The health and safety of our workforce, sub-contractors, clients, and surrounding communities is our highest priority. Our HSE commitment focuses on:

ZERO-ACCIDENT WORKPLACE TARGET

Implementing proactive safety measures, mandatory Personal Protective Equipment (PPE), and hazard management to eliminate site injuries and lost-time incidents.

COMPREHENSIVE ON-SITE RISK ASSESSMENT

Identifying structural, machinery, and electrical hazards before site activities begin and establishing clear safety protocols for high-risk tasks.

EQUIPMENT & MACHINERY SAFETY

Ensuring all heavy plant, vehicles, concrete mixers, and site tools undergo routine safety inspections and are operated exclusively by trained, qualified operators.

ENVIRONMENTAL RESPONSIBILITY

Managing site run-off, concrete washdown, dust control, and waste disposal responsibly to protect the surrounding ecosystems and site soils.

ONGOING TRAINING & TOOLBOX TALKS

Conducting regular safety briefings for site crews to reinforce safety protocols, proper tool handling, and emergency response plans.

CORE HSE & QUALITY COMMITMENTS

SAFETY FIRST, ALWAYS
Zero compromise on worker welfare and site security.

ENGINEERING PRECISION
Built exact to design specifications and codes.

ENVIRONMENTAL CARE
Disciplined site cleanliness and waste management.

BUILT STRONG, BUILT SOLID, BUILT SAFELY.
